

EUROTECH FIRE SYSTEMS LIMITED

FIRE AWARE Charter Certificate

MATERIALS SUPPLIERS & MANUFACTURERS

In signing this Charter

We commit that the following standards and actions will be upheld during the course of our activities:

1. As a first priority, we will at all times consider the outcomes of our actions in respect to the safety of the end user
2. We will be clear in our marketing regarding the performance ability of our product or component
3. We will be clear in our references to product accreditation and explain in simple terms how this aligns with regulation and to what extent
4. We will ensure information is readily available re product testing
5. We will confirm with our customer the intended use of the product and comment on its suitability in respect to being fit for the intended use
6. We will ensure clear instructions for use are included within packaging of the product with specific reference to tested applications
7. We will inform Fire Aware if we become aware of products on the market that are not in compliance with their accreditations
8. We will work with the Fire Aware organisation to assist members who need advice on products, specifications, or accreditations
